**FOR IMMEDIATE RELEASE****The Lackner Group Celebrates 35 Years of Trusted Software Solutions**

*Pittsburgh-based software company achieves milestone and looks forward to continued success*

**Pittsburgh, PA – (March 24, 2021)** – The Lackner Group, Inc., a leading software company, celebrates its 35th anniversary with the unwavering support of dedicated employees and loyal customers. In reaching this achievement, The Lackner Group proudly reflects on the many milestones in its history of pioneering complete and robust tools for estate and trust administration across the nation.

“I am very proud of what we’ve been able to accomplish in the last 35 years of business. The significance in achieving this milestone is about more than just longevity; it’s about celebrating that our customers and employees believe the solutions we provide are valuable,” said Vincent F. Lackner Jr., President. “We were founded on the philosophy of promoting a culture of curiosity, innovation, and opportunity. Our founding values continue to guide our mission today, and I believe that is why our company remains viable, strong, and prosperous. I’ve been fortunate to work with a talented, driven team who has been instrumental in our success, and I look forward to our next 35 years.”

In 1985, Vincent F. Lackner, Jr. –nationally known for his extensive experience with integrating estate tax and fiduciary accounting –developed the 6-in-1 Estate & Trust Administration Software, the only software of its kind that prepares federal and state tax returns and court accountings after just one entry of each transaction. By greatly reducing the amount of time it takes professionals to prepare estates, 6-in-1 allows customers to spend more time growing their businesses. Since the flagship product’s initial development, the team has continued to build 6-in-1 beyond Vince’s initial vision, and the innovative software is now used by law firms, accounting firms, and banks throughout the United States.

The Lackner Group looks forward to many more years of success. To request pricing or learn more about 6-in-1 or any of our other products, visit [The Lackner Group](https://lacknergroupp.com/).

**About The Lackner Group**

Located in Pittsburgh, PA, The Lackner Group, Inc. is dedicated to providing estate and tax professionals with trusted software solutions that save them time and money. Since 1986, the company’s flagship product, 6-in-1, has been meeting the challenge of collecting and tracking the vast amount of data and information relating to the administration of estates and trusts. Because 6-in-1 greatly reduces the amount of time it takes to prepare estates, The Lackner Group’s customers are able to spend more time growing their businesses. Other products include InheriTax, DecoupleCruncher, and NumberCruncher. Visit [The Lackner Group](https://lacknergroupp.com/) for reliable software solutions.
